Musby

(Dr. Joseph Leidy)

13 Norham Gardens, Oxford

vii. 20. 15

Dear Leidy

I am delighted with the sketch. What a fine artist he was. I remember with what pleasure I used to see some of his unpublished collections - I hope they have all been catalogued at the A. of Sc. Nolan of course has his memory very much at heart. I will put the sketch and your letter in the "Flora and Fauna" which I have just had nicely bound -

About the Biological Club - I can get no information about its foundation in '55 or '56. Jack K. M. can find no records. In the families of Wister, Hunt or Sellers, there may be details. In any case I will send you a note as Leidy was the life of Club - Love to the family

Yours ever
Wm Osler

All goes well here
