Have you lacunae in American & Colonial Edinboro thes^{is}?
A Miss Fitzgerald, Path. Lab. Royal Infirmary, would be only too glad
to look out for wants. She has a keen eye for old books and has al-
ready sent me a fine list.

Do not forget about any Morten pamphlets - or other early
anaesthesia literature. I have some Simpson pamphlets which I could
exchange. I see you have them all in the library. The wonderful
Index is a great help - marvellous collection! Greetings for 1916 -
all well. The country going stong. Hit any man on the head for me
who says peace! Greetings to your Chief.

W.O.

P.S. When is the new edition coming out? I have a few typographical
notes.
