(Card to Dr. Cushing)  
(handwriting)

(Jan.) 29th (1916)

Garth has arriven! many thanks. I had forgotten how well it looked. My Biblio-  
theca literaria thrives - I am getting in it the important non medical contributions  
by Doctors. I have bought off the Yale book by return of \$2000. I was doubtful  
about them. I suppose I have got critical - possibly hypercritical! the deeper  
I get into medical history. They will do as a nucleus for something else - later.  
Very busy lately - as much of interest in the para typhoid & *Chytridiosis* & heart S.  
Love to Kate & the darlings.
