From Dr. Malloch's Journal.

Sunday, April 7, 1916.

Came to Ox. yest. Walked with Revere to Blenheim and saw old Maisey the game keeper
Sat downstairs in the evening. Sir Wm. very interested in Agricola's book on Metallurgy,
the first of its kind. He has accepted position on Royal Commission on education in
Wales together with Sir Henry Jones - so much new work for him.

The Commission met every two months - used to go to Cardiff often. Large amount of money left
for establishment library course in Cardiff - Chair for librarians - Mrs. Smart want to study
there.
