13 Norham Gardens,  
Oxford, <sup>April</sup>  
12th (May, 1916).

Dearest Billie,

How goes the work? I hear you are the staff of the unit. Meakins was talking of you yesterday. He is very happy at ~~Mc~~ Vernon and getting into very good work. He and Cotton will get a great deal out of their experience as there is much to be done and we have such a nice set of fellows... Good letter from Bea this week. She has had trouble again in her tummy, but is better. Gwen and the chicks are A.1. Maizie may come over with Harry. All well here. Revere is expecting notice any day to go to Newcastle for training. I wish he was going to Exeter. It has been a slow job. Joan [~~McKenzie~~] and her Douglas <sup>[who has been consulting at 73 Norton - London]</sup> (Fiskin) are beaming. He is all right again. I am on the Welsh University Royal Commission - for my sins - and will have a job in settling the new medical school at Cardiff. It is interesting work, and with such nice men. When are you coming? 'Tis time surely for leave.

Yours affec.

W.O.

(P.S.) Look after Archie Malloch - good lad and keen on literature.
