Oxford.

Dear Dr Abbott

I enclose C M A cheque. I am so sorry not to have sent you anything for the Jr. but I am hard pressed these days & the incessant calls keep me busy & prevent any literary work. I am away 3 or 4 days in Each week but there is so much of interest to see. We have opened a Heart Hospital at Hampstead. Allbutt, MacKenzie & I were asked to organize it & we have an A.I. staff. Meakins & Cotten are both with us so Montreal will get all or some of the benefits of the work

? or letter?

Revere has joined the R. F. Artillery & has been sent to Newcastle* for training. The McGill Unit is doing well. One of the army Consultants wrote the other day "the best staff in France" Rhea is splendid. Dr Francis has done well

Yours sincerely

W^m Osler
