FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

Oct. 30, 1918.

Dear Libby:

I hope to send you shortly a few pages of introduction. Singer at present has the manuscript. Please ask the publisher to send a copy of Sedgwick's outlines. We are trying to have the Science room at Bodley extended, and hope to have Singer appointed as Director of Studies.

Very glad to hear that you have been appointed Professor of the History of Science, also to know of Sarton's appointment. Let me know at any time if I can be of service to you or your department.

Sincerely yours,

W^m Osler.
