13, Norham Gardens, Oxford.

Dec. 29th, 1916.

Dear Hemmeter:

I want a copy of your Haller paper which came out in the Bulletin. I suppose you sent one, but I cannot find it, and I *am not* Haller in my catalogue. Most loveable man! I have been reading his poems for the first time. I am surprised to see, too, how much he influenced Schiller.

Have you any duplicate Servetus item. I think I have a few which I should be glad to give in exchange.

I hope all goes well with you. We are very busy & the house always full. I have about 23 members of my family over serving & my boy is on the Ancre in the Royal Field Artillery.

Best wishes for 1917.

Yours sincerely

Wm Osler.
