

D. Bryan DeLavan
Jan 6 1917

I will keep the original and send you this copy.

13 Northam Green,

Oxford

Jan 6th 1917.

"Dear DeLavan,

So nice to hear from you,
dear old friend! These are
hard days, but we are keeping
up our courage and are out
"on the long trail," and for
a fight to the bitter end.

No one is ready for peace
here, except a few x x
cranks. I wish I could
get across for a visit; but
it is impossible. I am
so tied and bound with many
things; and then our Co. just
21, is on the front, in the
Artillery, and in the thick of it.

P.S. I am greatly interested in
a young medical student
now in the first year course
at Harvard -

Arthur ^{Hartt} Jackson - ^{Pratt 1416}

Son of the late Dr. Geo. Thomas
Jackson of New York City, the
well known Derma tologist.
His family and mine have
been intimate for now four
(4) generations and his father
was like a brother to me.

Arthur is a graduate, in
fine standing, from Princeton
He is married and his son
is my namesake and godson.
I hope he may meet you.
Cordially yours
A. Myron DeLoan

DR. DELAVAN
COLLEGE OF PHYSICIANS
NEW YORK

April 24th 1920

Dear Dr. Cushing:

Referring to your letter in
The New York Medical Journal
of March 29th, I have correspond-
ed with Dr. Mueller at various
times for many years. I met
him first in 1881.

The only letter at my present
Command is one written
Jan. 6th 1917, in answer
to a Christmas letter and
a photograph from myself.
Like every thing which came
from him it is characteristic,
and, in the light of subsequent
events - pathetic, not omitting
withal the innocent joke!

He has turned out such a
 good laddie, devoted to
 books and literature.

I have 22 members of my
 family over here from
 Canada.

There is great appreciation
 here in circles that know
 of all the sympathy and
 support we get in the U.S.

Yours Ever

The Osler.
