Letter (Script)

Dear Archie,

An advance copy of Finch and Baines came today, outside looking so spick and span, and inside just perfect! 'Tis an A.I. bit of work - hearty congratulations! The story is well told and brim full of interest. I am sure it will have a warm reception. The plates are first class and in the quarto form came out so well. The Finch room is a great addition. I have read through the text carefully and can find no mistakes. The index is not a bit too full, and is most useful. Gunther, of Magdalen, was in this p.m. and found several items of interest of which he took notes. Your father will be delighted. I will see to a good review in the Lancet, and in the C. Med. Jr. I believe it will go - in any case you will have got your money's worth out of it. How delighted your father will be. I am asking Mr. Clay to in a copy to him. We hope to see Dr. <sup>Cal</sup> Birkett tomorrow.

Ever yours,  
Wm. Osler.

P.S. Good news from Isaac  
who hopes perhaps to get news <sup>come</sup>  
at the end of the month.

Love to Bill and all old friends.
