Dear W. S.

Yours of 20th here today. The boats are coming in- this is the 4th American mail this week. We are so excited about the news in America. What a pity that a doz. men should be able to block all legislation. It looks hopeful. & if America comes in the moral effect will be immense. Germany is not beaten yet & we are not in sight of the end. I expect t see Teddy over here with a big Division. All goes well here. We are worried all the time about Revere, who has been in the Ancre fighting ever since Oct. We hoped that he might have leave but I am afraid his **Battery** has been moved up towards Bapanne over the very bad country which the Germans have had sense enough to leave. He has kept well & writes very cheerfully. . . I hope Sister Susan keeps up her strength Give her our love. (I shall look for your article. Mrs Chapin is still with us Rolleston was asking for you the other day. He has done splendid work & as leading medical consultant to the Fleet his opportunities have been exceptional

Yours ever.

W^m Osler
