

From the Regius Professor of Medicine, Oxford.

12, vi, 17.

Dear Jacobs:-

of letter to Jacobs -

I have a reply to my query in Notes and Queries about the [Jewer] picture, from B. Whitehead of Brick Court, Temple, E.C., London. He asks particularly whether my correspondent is a possible purchaser. This looks hopeful. I will see the picture, if anywhere near. All well. Very busy. The American Units are splendid, and have stirred up great enthusiasm.

Rever's battery is now north of Arras, and I'm afraid has been in this recent push. We have not heard for some time.

Love to you all.

W^m. Osler.
