Sept. 4th

Dearest Sylvia

I am so delighted with the photographs of you & Phyllis & Robert. What a darling he must be! and so big & strong looking for his age. I wish I could see you all and have a good play. I enclose a snap-shot in which you will see a little girl, about Phyllis' age, driving me as a horse. In the other you will see me at work at my desk and on the mantel piece, with a glass you will see your photograph. Tell Mother I got her letter today. What a big girl you have grown. It is five years since I saw you - such a long, long time! I wish I could stay a month with you at Avalon. Give Phyllis a big kiss for me and tickle Robert for me very high up under his left arm.

Your affectionate

Uncle Osler
