My dear Osler,

My old friends are much obliged. So please send me a cheque and I will either keep the stick here till you come to Town or send it to you at Oxford. I had a copy of the Harvey pamphlet you speak of but I can't just put my hand on it. That is the worst of changing homes. Perhaps Dr. Thos. Eastes of Folkestone could help you. His brother the late Dr. G. Eastes wrote it and was the great arranger of the whole business. George Eastes' son Leslie Eastes the bacteriologist may possibly have a copy left. There was a full report in the B.M.J.

Yours sincerely.
F. William Cock.
