

Dear Adami,

Love to I. So glad she is better. The notice of Jack was first-rate. I am sending one to Nature.

What about the Journal? I want Singer to come in one day to be posted about your history methods. A fine fat bunble of biographical reprints came yesterday. Thanks so much. I have not yet had time to look over them, but they fill many gaps.

I am very excited, in anticipation, about a box of Anaesthesia material sent by Morton, son of the M.

Yours etc.

Wm. Osler.
