p. 266 of my text book is a short account of
Seph. anaemia. I see four good references in
the literature which I will look up tomorrow.
Write up the case thoroughly as it is one of
exceptional interest.

Wm Osler.

These communications are all in
Sir Wm's handwriting, the only one I received
written by a secretary, was ^{dictated} two days before his death
when Mallock took the dictation.
