March 27th 1918

Dear Osler, Medical Society of London

Yesterday afternoon at the Council of the Medical Society it was proposed from the Chair, & unanimously agreed to, that you should be invited to accept the Office of President of the Medical Society of London for next Session.

I know there are many claims on your time & energy, but I would like to make a personal appeal to you to accept this office. I do so not only because we all feel you would adorn it but also because in this fateful year I feel that, with London the centre of the civilized world, you would, as President, help to unite the medical men gathered here from all parts of ~~England~~ ^{the Empire.}

You would not be required to take up Office until Oct. There are generally four Meetings before Xmas, & 5 or 6 Meetings between the following Jan. & May.

It is easy for a Vice-President to replace you when unavoidably kept away. All the Meetings are on a Monday.

Besides presiding, you are not called upon for anything else, unless you care to give an Introductory Address

CUSAT7/125.682/3

at the first Meeting in Oct. This is optional.

It may interest you to know that Dr Edmund Cautley will be the Senior Secretary next winter & MrDonald Armour has been nominated by the Council as his surgical colleague.

I hope that no persuasion is required. I can only assure you that the whole Society would warmly welcome you as President.

Believe me,

Yours sincerely,

W. H. Thomson
President

*Auctoritate Præsidentis moneo te, Domine,
ut comitiis Majoribus Ordinariis intersis die
Lunæ 25^o Mensis Martii, horâ 5^{ta} P.M.*

Gulielmus Fleming

Bedellus.

AGENDA.

- I. To elect a President, pursuant to Act of Parliament, 23 and 24 Vic., cap. LXVI. s. 6, and Bye-laws XLIV, XLV., XXIX.
- II. To seal three copies of the College List, for the use of the General Medical Council and Branch Councils.
- III. To receive a gift from Mrs. JOHN ABERCROMBIE, consisting of a pair of scales, formerly the property of Dr. EDWARD JENNER (1749-1823).
- IV. To receive a communication from the Secretary of the Royal College of Surgeons, dated February 15th, reporting proceedings of the Council of that College on February 14th.
- V. To receive a Report from the Committee of Management, dated January 14th, as follows:—

The Committee of Management desire to make the following recommendations:—

- (1) That inasmuch as the South African College, Cape Town, is to become the University of Cape Town, on or about the 4th April, the courses of instruction in Chemistry, Physics and Biology, Anatomy and Physiology, hitherto recognised by the Examining Board in England when given at the South African College, be recognised under the constitution of the new University.
- (2) That the examination in Chemistry, Physics and Biology for the Degree of Bachelor of Science of the University of Cape Town be accepted in lieu of the First Professional Examination of the Examining Board in England in those subjects.
- (3) That the Western University, London, Ontario, be restored to the list of Universities recognised by the Examining Board in England.

NORMAN MOORE, *Chairman.*
