

(Handwriting)

(To Major W. S. Thayer, A. E. F.)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD. 5.IV.18.

(April 5, 1918)

Dear W. S.

So nice to hear from you. What an anxious time you must have had; but I hope now you will find some solace in the heavy job you have in hand. There is a great work ahead for all of you. We are following the recent events with anxious hearts. There are so many of our local friends in the divisions which have been in the thick of it.

Tileston has gone home after six months of work at the Heart Hospital. He is a trump. Bridgeman came in the other day. He is at work now. Send over any one you can. Lewis is so glad to have them. Tom Fitcher is here on his way to the Steamer - sailing tomorrow. He has had such a good time & has (had) done splendid work. We are very busy, as usual - and the house going strong. Love to Tom Boggs & to all. Do let us know if we can send you anything

Yours ever

W^m Osler
