Oxford.

Dear Parfitt

I do not know when I have had more pleasure out of a letter than from yours of the 2nd. It is just splendid that you should have come out in this way against such heavy odds. The pictures are just what I wanted. The lassie is just what I would like as a playmate. What a darling she looks! We are well and as usual full of work. I have just come back from a visit to the rapidly organizing American Hospitals in the South of England. Many of my old boys have come, and I took in Midhurst on the way back - the King Ed. Sanitarium. A wet, cold spot on the Downs, but the results are good.

Love to you all,

Yours ever,

Wm. Osler.
