Letter (Script)

24. 7. 18.

Dear Archie,

I do hope your leave will not come while I am away. I shall be at Cambridge 6 8 Colchester 9 10 Oxford 10 13 Lyme Regis 13 20 Newton Abbot 21 23.

I got one or two small items at the Huth sale nothing of moment. I missed a couple of good incunables. Some good Linnaeus items, a new and several biographies in today.

Let me know definitely when you are likely to be over. A week at Lyme Regis with the girls would do you good. My Class. Ass. address is Jan 7th. Shall probably take "The Class. Tradition in Science" as Subject.

Love to Bill and to Martin who writes very enthusiastically about you both. Bring over any material.

Yours,

W. O.

Tell Bill that his old chum Strong is here reading proofs of his Trench fever work. What an experience to have had in pneumonia. We might have a few days in London together.

Inquires from ~~some~~ ^{the} sales whether in some books in the library
He candidly extended his time in Cambridge and found over the library items were Doyle.
Incidentally he bought books at the auction shop as Doyle told me, and Doyle says expended so much he could hardly get away.

Among the books ^{were} which got in the Bib. ~~literaria~~ was a copy of *Petr. Secunda* seen under Paracelsus. It maybe rather in passing but it is Bruner's poem the first ^{of 1435 way} edition. Dr. Red Geo. Stephens R. from Dante G. Rossetti R. inserted a list page and P.R.B. listed in the cover. In the back W.D. has noted.

"Bought in Cambridge Aug 10. '16. Red Geo. Stephens was one of the seven *Prophetiae* Brothers. See references to him in Burne Jones' life. He is in D.N.B. 5 up or vol.

* Rossetti, Maddox Brown, Woolner, Holman Hunt, Millais, H. Stephens, Burne-Jones.
