

CUS417/126.40

From the Regius Prof. of Medicine, Oxford.

Saturday.

Letter Script.

8/10 [Aug.] 10th.] 1918. <sup>8/10</sup>

Dear MacAlister,

That is a fine memo and I hope the purse strings of your friend may be unloosed! Shall you be at home the end of the month? I have been at Cambridge lecturing and at Colchester all week and am off to Lyme Regis on Monday a.m. for two weeks. Tomorrow Prof. Nettleton of Yale comes to discuss the Am. Univ. Union 135 colleges are combining to arrange for P.G. work in Europe. They hope to establish centres of information etc., and he thinks traverses this at many points, and is much interested. We shall have to consider them in the discussion. I go to Hurst on the rounds. To start a new 'spital would be formidable.

Yours,

Wm. Osler.
