Dear Nuttall

That is a wonderful record in the Quick chair - you may well be proud of starting the Professorship in such a splendid way.* Do you mind if I pass on the volume to the Radcliffe, where it will be of much more use than in my library? I want however for the Bib. Osleriana a couple of your early papers on anything special you may have. I want all my old friends to be in the Catalogue. Flexner arrived in London on Monday (Brown Shipley & Co.) I hope you have good news of the boys. These must be anxious days for you both. My love to you all, and tell Carmina that Peter Bell, & Young's Night Thoughts would be so helpful in keeping her head & heart on an even keel

Ever yours

W^m Osler
