

(Letter to Adam H. Wright, M.D.)
(handwriting)

OXFORD.

(Dr. Watson my
(successor in Tor Univ)

Dear Adam H.

Watson should be an A. 1. man from his training. I hope you have
got inside information about his adaptibility &c. Some of these ~~sects~~ ^{sects} are so
d - ~~crochety~~ & hard to get on with. You will have a row if the Faculty is not
asked to participate in these elections & rightly so. There should be a committee
of conference. It is an inherent right I hold in a faculty - & the practice is
universal. Here we have boards of electors of each chair. Talk the matter over
with Faulkner & Clark.

Let me know if W. accepts as I should write to him.

Love to the family

Yours ever.
