13, XII, 18.

Dear Jacobs

I have had from the Liverpool Tropical School a Mary Kingsley medal for your Baltimore collection. It goes out to McCulloh, A.M. Museum, Washington, with me for their collection. 'Tis a beautiful bit of work. Thank the Sec. of the School for it. My love to the dear old man.

Have you read Parker Weber's 3rd. ed. of Aspects of Death in Art? - bit of fine literary work - All well.

Hampton Robb has just been here; George Draper here to-day investigating this endemic encephalitis. Alonzo Taylor & Winter came for this week end. Ask Storer if he has Vol. XXXV (35) of Boston Med. & Surg. Journal? I am sorely in need of it to complete my early anaesthesia set.

Love to Mrs. Jacobs.

Yours ever,

Wm. Osler.
