*A J M outgiving Moshier*

Dear Mosher

I have no record of my flag-raising remarks - so sorry. They did not amount to much. The Unit has had a brief but interesting experience at Portsmouth. Elting made things hum, at first; & Corning has been an unqualified success, as his successor. The clin. & path. laboratory was one of the very best I have ever seen, & the X-ray outfit was extraordinarily good.

I should have liked so much to see your boy. I am writing to ask if he could not come here for a week end. I should be so pleased to show him my books to ~~to~~ ~~to~~

My love to Hun when you see him & to all old friends.

Sincerely yours,

(Signed) Wm. Osler
