

6.1.9. CUS417/127.9

Dear Adami,

Wyatt Johnston* spent a few days with us. What a splendid fellow he is! I am delighted with him. He is anxious to come here to do his primary work in Medicine and to begin at once. He has had 2 years in Science. What could we do to get him recalled? He has filled in applications, but this eve I have had the enclosed wire. Could you help in any way.

J.G.A. * The son of my old colleague and Osler's friend the late Prof. Wyatt Johnston.
