J. George Adami to W.O.
January 28th, 1919.

My dear Sir William,

I have already had one or two suggestions that my "Policy of the Ostrich" paper will be of service if brought before the general public in pamphlet form; what think you, and have you and those working with you any desire to do propaganda work by pamphlets?

Saying this, I see the difficulty, as I do not go the whole length with you in the matter of prophylactic treatment.

Yours ever,

(over)
