Dr. F. J. Shepherd,

Mansfield St.

Montreal,

Can.

From the Regius Professor of Medicine, Oxford.

11th January 1919.

Dear Shepherd,

I hope Maude Abbott's trouble has been settled. Surely she should have full control of the Museum without interference.

I do wish they would get the Departments of anatomy and phys: settled. Geddes is not likely to return.

Do you know Todd of Cleveland, who seems to be A.I.?

All goes well here. Men are flitting West, and we have a constant stream of visitors.

Love to Cecil and Dorothy

Ever yours,

W^m Osler
