

From Miss Smart's notebook.

To Hon. Waldorf Astor.

Dear Astor,

Feb. 5
CUS 917 / 127. 63

So glad to hear you have appointed an official Committee on the V.D. question. It would be very important to have the evidence of the character and success of the work done in France in the American army. The man in charge, Colonel George Walker, probably knows more than anyone on the whole question. Surg.-Gen. McCaw would, I am sure, send him over on your request. He not only knows the business from the military standpoint, but he did an extraordinary piece of work in connection with V.D. in Baltimore.

V.D.
