1919.

Lord Parmoor's Committee is anxious to have first-hand-evidence with reference to the food conditions in Vienna, particularly among the poor.

Could you let me have as soon as possible your impressions.

The people in this country are most anxious to do everything possible to relieve the sufferings in Vienna which they feel must be very severe.--

I hope all goes well with you : Lewis has had a big Heart Hospital first at Hampstead and later at Colchester, to which Allbutt, Mackenzie and I have been attached.-- Do let me know should you ever get back to your native country. I should like so much to visit Holland in the Spring.
