Feb. 6.

Dear Editor,

Would you like half a dozen letters written between  
1816 and 1818 by my Uncle Edward when he was a student at  
the Burrows(?) hospital? You printed one 2 or 3 years ago  
describing Astley Cooper's ligation of the abdominal aorta.  
They give a very <sup>good</sup> picture of the medical student life of the  
period.

1816-8  
medical  
student  
life.
