

Lucretius, 1919.

To Joseph Offord, Esq. (since died)

March 9/1919.

CUS 417/127.165

Thanks for your note. I know about the medals and coins of Pfeiffer.

Have you seen the last edition of Parkes Weber's book? Most interesting. I have not read anything of Prof. Eddington - where is his article? Lucretius is my stand-by on the Cosmos - no one since has understood it so clearly or put its problems so beautifully.

Cf. Dec. 1st 1909 Lucretius - Prose.
