Prof. Dock, St. Louis.

Egypt
Med.
School.

So glad to have yours of the 7th as we have not heard for a long time. How delightful to get George back! What an experience you must have had! Thanks for sending information to Richards - I am very anxious that the Government should get the Egypt Medical School into first-class order. I wish indeed you could get a sabbathical year! It would be splendid to spend part of it over here and Paris. I would agree to join you in a 3-months' rund-reise...
