Dear Adami,

I hope you will come to a meeting on Tuesday next at four o'clock, R.S. Med. at which we are to discuss the post graduate scheme.

I have been in bed a couple of days with an infected tooth: I am all right again now - such an aggravation, as I had to have Rolleston take charge of a dinner which I gave to Graham to which I had asked all the Professors in the U.K. in order that they might see the first whole-time Professor in their subject, at least in the Empire.

Sincerely yours,

Wm. Osler.

We are asking all the Overseas representatives and the Am. Amba.
