Dear Shepherd

I am delighted with your account of the old school and our old teachers. It is well that some one who had intimate knowledge should have put down their main features. Why not print it privately? 'Twould be worth while.

The pictures of Frazer and Billy Wright are so good - poor dear 'Old Commooicate' <sup>Communicate (Frazer)</sup>

[Wm Frazer] ! What a rare old bird he was! Your description of Fenwick is excellent. What an old darling he was! I wonder where that Quebec Med. Jr. [\*] is which he 'appropriated' for me, & which I borrowed from Judge Teyssier of Quebec. All so glad about Geddes, who has really been one of the great successes as a Minister. Fisher the Minister of Education was here for the week end lately & says they are all so distressed at the loss and not a little chagrined, that he should turn down so distinguished a political career. # I think he is wise. It looks as if Whitnell <sup>a</sup> would go from here as Anatomist - a keen bright fellow & a good investigator. He has an extraordinary sense of humor. Mrs. W. is charming. I have not seen Tait the man who will probably go as Physiologist. Shafer speaks very highly of him. Wyatt Johnston has been with us for 3 weeks. He will take his Anat. & Phys. here & the Phy. honor school. We will lick him into shape. I have given <sup>my</sup> my rooms at Ch. Church. He has brains & I hope may develop as his father did. Love to Cecil & Dorothy. I wish I could spend a week with you at Cano. <sup>come</sup> The Library thrives - something new or old every day.

Ever yours,

Wm Osler

Note on envelope.

Best of all I think is the sketch of Dawson. What a rare man he was!

W.O. had forgotten that is in the  
Med. Lib. where he saw  
it & put a note in it in 1897!!
