CUS 17/128.48
(To Dr. Cushing)

13, Norham Gardens, Oxford.
27. IV. 19.

Dear Harvey C.

Rymans man would not lower the price from 80 guineas. He has packed the picture and will send by the earliest chance. It may be several weeks. It is worth having, I am sure. I hope for Spielmanns sake something may come of your effort to get a subsidy. The work must be published.

Sue - both Sues - sail in a couple of days. She has done a great work over here, and so quietly & firmly without 'fuss & feathers'. It has been splendid. You have given us a heap of pleasure with the Sat. Club book. I have read every page. That was a glorious company. How Johnson would have loved them - most of them of better metal than his comrades. I am enjoying the club dinners - such pleasant fellows Asquith presides at our next.

Nearly 200 Americans here for special work this term. We shall have very lively Sundays. I wish you were here & Kate to help.

Love to you all

Yours

W. O.

We expect Popsie this week.
