Dear G.C.S. (*hattuck*)

Yes, I should like the report very much, but I certainly should not take it if the Boston Medical Library has not a copy. I have never heard of it: I wonder whether it is in the S.G.L.

I got a great book the other day from your fund- the 'Speculum morale' of Vincent of Beauvais, 1476, in the original oak boards- a superb copy weighing only 29½ lbs! Also the ed. pr. of Plotinus, 1492.

I enclose you a slip with the list of books I had on exhibition last week for the Classical Association.

Love to F.C. and the family,

Sincerely yours,

Wm. Osler.
