

(Dr. Cushing)

13, Norham Gardens, Oxford.

June 4, 1919.

Dear Harvey:

It was most kind of you to send the Clemenceau with the enclosures. I have a copy, so that if you will allow me, I will pass it on the College of Physicians Library. I will keep your copy of course, particularly from its association with the old tiger.

You were to send me that small Vesalius, and have you heard anything definite from the Wistar? A few treasures turn up every week.

We had our first Roxburghe Club dinner since the war last night - how I wish you could have been at it - some most interesting men.

I hope you have got the picture by this time. I think what you sent covered the amount, but I have not heard about the packing, etc.

Love to the darlings all.

Ever yours,

W<sup>m</sup> Osler.
