

July 7, 1919.

(Letter to M. H. Spielmann)  
(typewritten)

From the Regius Professor of Medicine, Oxford.

13, Norham Gardens

Dear Spielmann,

You will have had by this time Hoeber's offer.

If I were you, I would accept: he does excellent work and would give you, I am sure, absolute control over all typographical details. Cushing, too, would help I am sure in every way. Let me know at once, please, what you think.

In some ways, of course, it would be better to have it printed here, but very naturally Hoeber feels that if he is going to raise the subsidy and take the risk, he should have the credit. If you have not had Hoeber's letter, I have a copy and could send it on. Wire me if you have not had Hoeber's letter.

Sincerely yours,

Wm. Osler.
