Dear Garrison:

I am delighted with the anthology which came last night. It is really a remarkable collection, and one wonders where you got it all. Very many are new to me. I will discuss the question of publication with Milford.

The work would, I think, be greatly appreciated in the profession, and outside for the matter of that. I will write again in a few days; meanwhile send this letter on to Casey Wood, about whose address I am doubtful.

Sincerely yours,

Wm. Osler.
