Dear Friedel Pick,

It was such a pleasure to hear of you and to have the postal card from Wenckebach. Several times we have spoken of you and wondered how you were. I suppose the war had hit you hard; but I hope you keep well. Let me know if I can be of any service in any possible way. Except from our terrible losses England has come through wonderfully. My Countryman—the Canadians—came over nearly 450,000. I acted as consultant to several of their Hospitals in England.

What is the German Faculty to do in Prag?

I lectured in two cases of Picks disease in Soldiers last year. Have you seen polycythemia with it?

With greetings and regards in which Lady Osler joins

yours sincerely

W^m. Osler.

Dear Sir!

Prof. Wenckeback wrote me, that You wish to have letters from Wm. Osler; I send You a copy of one,, who was an answer to on a travel through Prague, on which I subscribed a post-card, written by Wenckeback. She is very characteristic for the gracious kindness of our bewailed friend and was
