*W/O*

Dear Cameron

Thanks for that delightful letter, which came this morning. You have a wonderfully gifted pen - do use it more for our benefit in the next decade. You will have had my birthday greetings, I hope before the 12th. The Classical people seemed pleased to be scolded. I had to poke a little fun at the Science men. We had a great day on the 12th. Allbutt made the presentation of the Volumes. I wish you could have seen him - & heard him. He is 83 but looks about 60 & his voice so clear, & he is such a darling. We had a great gathering. Crozier could not come. Ramsey Wright was there - by the way he is back now & very happy. I had all sorts of thrills. That J.H.H. Bulletin reminded me of old days.

I had a great Incunable from the Colophon Club and some friends sent the 1859 Omar, Fitz copy given & inscribed to Max Müller. The Library grows & my catalogue is now the absorbing interest. Nancy Astor came up the other day - just as breezy as ever. Adami should be very happy at Liverpool.

Love to you all

Yours ever

Wm Osler
