Dear F. C. S.

That was a very gracious tribute to your old friend & I appreciate it from my heart. 'Tis a long while since we met first in Vienna & we have much to be thankful for. We have lived in a great generation, & have seen great things - tho when I read Emerson's Saturday Club, by Howe I feel that we are not in it with that group.

I had a great birthday - Allbutt was splendid in making the presentation of the volumes. He is wonderful, 83 - & as lively as a three-year old.

I hope you had my birthday greetings. Love to you all.

Ever yours

Wm Osler
