

CUS 917/129.90

August 1919

(To Dr. F. J. Shepherd)

(To Gen. Birkett, cont)

(handwriting)

FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD.

28.VII.19 (July 28, 1919)

Dear Shepherd.

The complete control of the teaching of Medicine and Surgery would
I enclose an open letter to the dean in the question of reorganiza-
tion of the clinics. The School must come into line with the progressive other
movement going on everywhere. The Hospitals have it in their power to block
or to promote progress. Do use your strong influence at the M.G.H. to help
carry through what is really an essential measure of progress organized on similar
lines, in connection with the hospitals and the University Maternity.

Sincerely yours
