re letter

Dear Singer,

'Tis A.l. but too long for an open letter. 'Twould not be read by one, where twenty would read a short note. Send it to the B.M.J. as 'twill do good.

re A.B.

Do not tinker at an old and successful book - always a radical mistake. You and M. write a new one.

Yours sincerely,

Wm. Osler.

P.S. I am glad to see the condition you are still in regarding Harvey's de generatione. I was in it myself until Brooks showed us the true relation of H. to von B. Wolff and Aristotle.

From Dr. Singer.
