Dearest Sister Sue

This place has been a great success. You should see Grace gewolping in the sea! We have scarcely missed a day. Only three bad days in the five weeks. Our only regret is that you have not been here. Three ideal meals a day! I have got back, I am sure the 21 lbs I had lost, & no longer see my ribs.)

Annas letter came yesterday & we are so glad & so sad. 'Tis much the best thing for her of course but we shall miss her & the dear Tony so much. I do hope L.S. will break away & get on her own. I have written urging her to enter the J H H. or the M.G.H. I am sure she will do well. She is a very capable girl & fit for anything when once she got into the right groove. Miss Lawler would like her & it would be better to be away. She would have Marjorie & Rachel to go to & as for the exams I do not think they would be beyond her powers. Have a good talk with her when she returns. Of course, if you feel she should go to the Faulkner, it would be all right, but I feel she would do better away from home. We have another week here. Archie is still with us

Make John read that History of American literature about which I wrote. We have been so interested Text-book is booming - so sister is happy. I am a new man - & my handsprings in the sea are much admired

Your affec bro

W.
