Dear MacAlister,

I hope you have had a good holiday and are feeling fit. We had a good holiday, and I am back to normal pre-war weight. See you on Monday at 3.30 when we talk over the future.

A very remarkable man, Dr. F. Hoffman, Vice-President of the Prudential Insurance Coy. of America, is in England studying National Insurance problems. The Fellowship should have him one evening for a talk on his impressions. He knows more of the medical profession than any man living, and is a statistician of the first rank. Look up his record in the American "Who's Who". Moreover, he has at the Prudential a library scheme which would make your hair turn grey with envy!

I wrote to Rolleston about him: his address is Ritz Hotel.

Sincerely yours,
WM OSLER
