Oxford.

Dear Garrison:

Chapman, one of the Press Secretaries, took the anthology Ms. with him on vacation, and has not yet returned. I understood from him that the Press will take it, so if you have ideas as to format etc. send them on. An attractive volume should be made as the stuff is A.I. There are one or two I may wish to slip in. C.A.W. writes that he will be with you soon so read this to him. I am writing him in other matters. We had a fine holiday in Jersey. I am trying to revise and partly rewrite my text-book. Greetings to your new chief whom I know. We can give you anything in the way of photographs from Bodley. Singer will be delighted to help.

I wish we could do more for him here, but there are difficulties - racial.' in some quarters. Mrs. S. is a splendid worker.

The B.M. people have gone over my early med. incunabula list - to 1480 - verified everything and we should be ready to print after Xmas. I have a 40 - 50 pp. introduction.

Yours sincerely,

Wm Osler.
