Dear Sir William,

I have sent by parcel post, for your acceptance, Williamson's work on "Old Greenock". I do not think there is anything relevant in the second series, but in the first series there is a reference to Morrison at p. 35; and in the appendix (pp. 286-291) there are reprints of important writings. Possibly, however, none of this is new to you.

I enclose a typewritten sheet which I got from Mr. Leighton, Librarian at Greenock. At the foot I have written a summary of the points in the accompanying letter from Leighton. (see 1<sup>st</sup> page).

I am sorry that my research has not been more fruitful, but it is not yet completed.

With kindest regards,  
Yours sincerely,

T. K. MONRO.
