Messieurs,

Concerne : CONSERVES DE TRUFFES DU PERIGORD -

Nous vous remercions de votre aimable demande d'offre en date du 7 Mai.

Nous vous remettons sous ce pli nos plus justes prix. Malheureusement ils sont en augmentation très importante par rapport à notre précédent tarif.

Le déficit quantitatif de la campagne 1961-1962 a succédé à deux récoltes dont les apports étaient si insuffisants qu'ils avaient réduit à rien les stocks des conserveurs et utilisateurs.

Comme l'utilisation très diverse de ce produit fait que les besoins sont de plus en plus importants, les cours pratiqués durant la campagne 1961-1962 ont pratiquement doublé par rapport à ceux de la campagne précédente.

Voici à votre intention nos prix les mieux étudiés :

CONDITIONS. — Nos offres et nos prix sont sans engagement. Nos marchandises sont toujours considérées vendues et devant être agréées au lieu de départ quel que soit le mode d'expédition ; port dû, port payé ou contre remboursement. Toute affaire d'achat ou de vente négociée, soit directement soit par correspondance, soit par représentation, ne nous engage que sauf bon pour réception. Et toutes contestations y relatives sont de la compétence exclusive du Tribunal de Commerce de Brive, le tout nonobstant toutes clauses contraires posées que nous n'acceptons pas et repoussons.

Messieurs ,

Suite à ma dernière lettre , j'ai l'avantage de vous faire savoir que la nouvelle fabrication est commencée depuis une huitaine de jours .

Comme il fallait le prévoir les fruits sont très chers cette année et en particulier les Groseilles ont atteint des prix jusqu'alors impratiqués ; le fruit est extrêmement rare et c'est ce qui fait sa cherté ; toutefois , il est à remarquer , que sa qualité est des meilleures .

Par ailleurs toutes les fournitures ont subi des hausses très importantes : verres , capsules et étiquettes ; les salaires ont dû être également élevés .

En conséquence de toutes ces considérations j'ai été contrainte de pratiquer une hausse d'environ 15 % sur les prix de l'an dernier et je pourrai vous coter comme suit :

La douzaine pots " PORTION " ..	24 .-
La douzaine pots "BAR"	31 .-

Toutes les marchandises sont garanties pur sucre et pur fruit , sans colorant ni anriferment ; la fabrication est garantie de la dernière récolte , et chaque pot porte la vignette de garantie de la " VERITABLE CONFITURE DE BAR LE DUC " .

Les prix donnés s'entendent pour le FOB LE HAVRE .

Espérant que ces conditions vous permettront de me confier vos ordres auxquels j'apporterai tous mes soins ; si possible ; me transmettre les quantités commandées par câble .

A vous lire , veuillez agréer , Messieurs , mes empresses salutations .

Messieurs,

J'allais vous remettre mon tarif pour Prunes d'Ente de la récolte de cette année, quand me parvient votre demande de prix du 3 Octobre courant.

Régulièrement, ces cotations auraient dû vous parvenir il y a 15 jours ou trois semaines. Mais, nos récoltes fruitières, spécialement celle des Prunes d'Ente, ont eu beaucoup de retard et un très faible rendement. Les cours ont été très fluctuants et ne se sont raffermis qu'avec les derniers apports de la propriété sur les marchés.

Je désire que les prix communiqués vous permettent de me transmettre votre ordre et, dans cet espoir, veuillez agréer, Messieurs, mes empressées salutations.

Messieurs ,

Je m'empresse de répondre à votre lettre du 9 ct et vous fais savoir que je ne possède pas de représentant au CANADA . Ce serait donc avec grand plaisir que j'entrerais en relations d'affaires avec votre Maison .

Monsieur François HUCH m'a en effet ces temps derniers mis au courant des affaires qu'il avait traitées avec vous et des bonnes relations que vous avez entretenues ensemble durant d'assez longues années .

Ma maison est la plus ancienne et la marque " A LA CROIX de LORRAINE " est universellement connue . Contrairement à ce qu'ont voulu faire certains fabricants , je ne possède jamais de stock en fin d'année et c'est la raison pour laquelle mes ventes sont toujours garanties de la fabrication de la dernière récolte , pur sucre et pur fruit .

Cette année la saison s'annonce comme assez mauvaise et les fruits vont certainement manquer . Ils seront de ce fait très chers et à l'heure actuelle , il est encore impossible de faire des prévisions quant aux prix qui pourront être pratiqués , car nous n'avons pas encore commencé notre fabrication . En conséquence , je ne peux aujourd'hui vous donner les conditions pour des ordres éventuels .

Pourriez-vous à titre indicatif me faire connaître les quantités approximatives que vous seriez susceptibles de me commander ? D'autre part , les prix doivent -ils vous être faits " départ BAR LE DUC " ou FOB LE HAVRE ? Les frais de transport par fer , BAR-LE HAVRE , d'embarquement et de mise à bord se chiffrent à peu près à raison de 2,50 par douzaine .

YOUR REF.

OUR REF.

Messrs. Henri Jonas & Cie,
139 St. Paul W,
MONTREAL,
CANADA.

Dear Sirs,

Through the courtesy of THE Montreal Chamber of Commerce, it has come to our knowledge that you are one of the most reliable importers of teas. We, therefore, should be very glad to receive your opinion as to the prospects of the sale of our Formosa Black Tea in your market.

For your information we would report that Formosan tea industry has suffered extensively from damage as a result of the late war. Nevertheless, tea production for the crop year 1948 has been increased to approximately 20,000,000 lbs., which compare with 10,000,000 lbs. last season, and that the prewar level of production may be achieved in next season.

As you may already know, there is some differences between the system of manufacturing in Formosa and the 'Estate System' of such India, Ceylon and Java, where entire manufacturing process is carried out - withering, rolling, fermenting, firing, sorting, boxing and shipping - in every Estate's factory.

The preparation of Formosa tea, however, is roughly divided into two groups of manufacturing process, first comprising the preliminary operations of withering, rolling, fermenting, and firing, by which the products known as 'Crude Tea'. This work is all done by local factories situated in the tea producing districts. The second and final process is being completed at the refining factories in Taipeh city.

Under these systems of manufacturing, we have six local factories under our direct management, all of which are sufficiently equipped with up-to-date machinery and has a manufacturing capacity of 3,000,000 lbs. of tea yearly. In addition to this, we have recently completed the building of our main factory at the above address. All the crude teas manufactured by these local factories, are transported to our main factory, where the final manufacturing process will be carried out - cutting, sifting, blending, packing and shipping.

Messrs. Henri Jonas & Cie, MONTREAL, CANADA. 2nd Oct., 1948.

Prompted by these facts, we have decided to extend the range of our operation in the foreign markets, and have been on the look-out for a suitable importers of tea in your market. Should you favourably consider this proposal of ours, and cooperate with us, we trust that a large and profitable business would be the result.

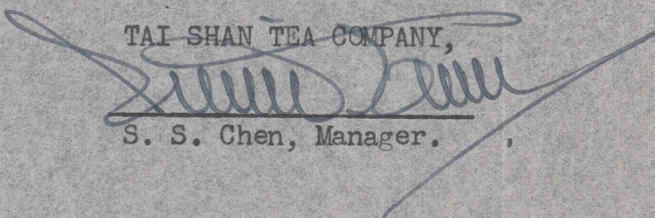

If you are interested in any of our teas, kindly write or cable us stating complete specifications regarding the types, qualities, and quantities of tea you require. We shall be pleased to forward you the latest samples and quote you on your particular requirements.

References on our firm can be obtained from The Bank of Taiwan, The Commercial Bank of China & South Sea's, Ltd., The Taiwan Industrial & Commercial Bank, Ltd., and The Formosa Tea Merchants Association, respectively, in Taipei city.

Looking forward with keen interest to your early reply, and hoping to have the pleasure of doing business with you, we remain

Yours faithfully,

Report on New Crop Hungarian Produce.

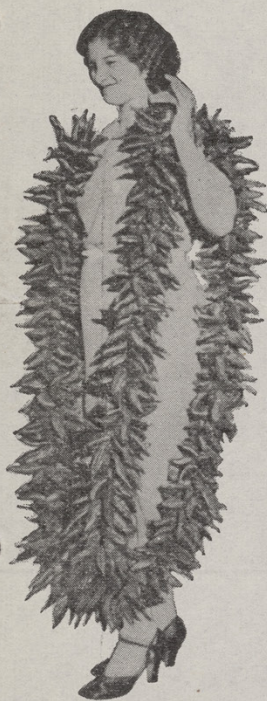

Szeged Paprika

a produce of high seasoning value.

Szeged paprika is available in a finely ground state, as well as in the form of entire pods (unground)

On the stand of Paprika cultures we may report as follows. As far as we are informed by approximate estimates an official reports, the area cultivated with Paprika is as extended as last year, if not somewhat larger. The young plants had been well developed and the weather favourable for setting out. Crop prospects are satisfactory for the time being, however, final outcome depends upon further course of the weather. Repeated abundant rainfalls are desired, on the other hand a lasting drought would be prejudicial to the crop.

Shipped in double bags containing 50 kilos, or 112 lbs net each. Also in white tin containers with 25 kilos each, and in lithographed illustrated tin boxes of 5 and 10 lbs net contents each respectively.

SELECTED WHOLE
PAPRIKA-PODS

Hungarian marjoram

renowned excellent brand.

The Hungarian Marjoram, whose production comes under State control, has an ample and intensive perfume, thus is a valuable product with regard to its seasoning effect. We received but satisfactory reports from any place where we exported Hungarian Marjoram. Sample supplied on request. Export begins in September.

Poppy seeds.

Areas are somewhat larger than that had been planted last season. Blowing will set in about the end of next week. Crop can be expected to be ready for harvesting about the end of August.

Mustard seeds.

Hungarian crop prospects are poor. No considerable exports to be expected. In this country yellow mustard seeds are produced exclusively, and that in a high-grade quality, equalling the best Dutch, or the large grain Danish kinds. Hungarian yellow mustard has a purity degree of 97/98% and thus answers even the highest requirements. Shipments can be made in August.

Roumanian mustard seeds

are qualitatively inferior to the Hungarian. The merchandise contains 8—10% of brown mustard as a rule. Roumanian crop prospects are quantitatively poor, for a considerable part of the last year's big crop still is unsold, and, in consequence of the low price formation, far smaller areas have been sowed. Yellow quality Roumanian mustard seeds with 8—10% browns are very cheap at present. We can also furnish pure browns.

Anis-Seeds,

intensely fragrant finest aroma
with guaranteed purity answering to your Food Laws.

Export of:

Dried onions in slices and Onion-powder
Dried vegetables and vegetable-powder
Peas Lentils Pumpkin-seed Sunflower-seed

We should feel much obliged to you, if you would be kind enough to recommend us to friends with a view to supplying those articles that are of no interest for you.

Montreal,

Gentlemen:

Since 1913 I have been represented on your place by the Firm W.P. DOWNEY LTD. with whom I have concluded many important business between them and on the date of 5th/1/1913, I received an order for you for 200 lbs. oil of lemon.

Since many years I have received important orders from my Agent and I must presume you have bought directly by him, but since long times my Agent has had the ability to flatter me saying always my prices to be high and buyers will not accept them and I have been deprived of your orders.

I must presume instead that Mr. Downey represents an other Firm.

Under these conditions I take the liberty to make you directly an offer of my new-crop of lemon oil at \$2.10, p. lb. C. & F. Montreal, to be shipped at your convenience during from next January to March.

For your guidance I beg to inform you that old stocks of lemon oil are nearly exhausted, consequently it is not possible to see lower prices in as much that in the last season we had a report of 200 000, Kgs. of 1937 production and now nothing at all to report. Besides that the lemon oil has also been the monopoly of speculators who use all endeavours to purchase beforehand almost part of production disposable on the market in order to influence the market by pushing high prices when the demand continues fair, as it has been during these last season.

Waiting the pleasure of your kind orders,

P.S. I am also in condition to offer you:

Dear Sirs,

We have decided to start exporting to Canada during the next six months, and before making final arrangements we are writing to know if you would be interested in our products.

You will see from the above letter heading the goods we manufacture - which include Marmalades. Our Factory is situated in the heart of Somerset, and you can well imagine what an advantage we have in being able to obtain fresh fruits at least two weeks in advance of other parts of the country.

We have a tremendous tonnage capacity, and in addition we are one of the largest manufacturers of Cut and Candied Peels, packed in small and large containers.

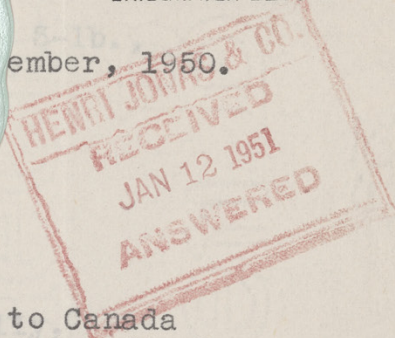

If you are interested, we would appreciate your advice as regards packing containers and the type and size of preserves required for your particular market.

Bordeaux, le 23 MAI 1945.-

Messieurs Henri JONAS & Cie
137/139, St-Paul Street West.
Montréal.-

Messieurs,

La guerre qui depuis tant d'années désolait l'Europe a heureusement pris fin avec la victoire complète des alliés et nous sommes sûrs que bientôt le Japon devra à son tour capituler.

Une satisfaction profonde se manifeste en nous et notre reconnaissance va vers les nations amies qui ont apporté à notre libération un précieux et puissant concours.

Nous avons maintenant hâte de reprendre les bonnes et anciennes relations que nous entretenions avec nos fidèles clients des pays d'outre-mer.

Certes, il est prématuré de parler affaires, les stocks en France étant à peu près inexistantes et les matières premières encore trop rares, mais nos usines ayant été heureusement épargnées lors des bombardements que nous avons subis, nous espérons pouvoir, dans un avenir prochain, reprendre notre activité; nous ne manquerons pas de vous en faire part aussitôt.

En attendant, nous aimerions avoir de vos bonnes nouvelles et vous prions d'agréer, Messieurs, nos empressées salutations.-

Messieurs,

Nous avons bien reçu votre lettre du 13 Mars ainsi que le fascicule que vous avez eu l'amabilité de nous adresser concernant les lois des conserves alimentaires.-

Nous allons faire tout notre profit de cette documentation. De la première lecture que nous avons faite, nous comprenons que votre Gouvernement accepte les boîtes du format standart Français, remplissage net champignons égouttés 8 oz base 1/2 (champignons et jus 15 oz) qui est du reste le remplissage normal Français.-

Nous notons d'autre part, qu'il y a lieu d'imprimer sur les étiquettes, ainsi que nous le faisons déjà avant 1940, un disque portant la mention :

CANADA
15
Fluid Ozs
SIZE

Nous vous remettons inclus un exemplaire de l'étiquette que nous pourrions utiliser pour vos ordres, restant entendu que le petit disque en question, au lieu d'être collé, serait imprimé directement en noir sur le fond rouge. Nous pensons que compte tenu de cette modification, l'étiquette sera bien conforme aux exigences de votre Pays.-

En ce qui concerne nos fabrications, nous n'insisterons pas sur leur valeur. Vous avez pu les apprécier et soyez assurés que nous y apportons toujours nos meilleurs soins.-

Les Savonneries et Huileries du "NATUREL", 74, Rue Sainte, à MARSEILLE

vous offrent une NOUVEAUTÉ... **le Naturel spécial**

IL REMPLACE :

Le SAVON de MÉNAGE. — La glycérine qu'il contient augmente ses qualités détersives et permet de faire de longs lavages **sans s'abîmer les mains.**

Le Savon de Toilette. — Rigoureusement **NEUTRE**, il est excellent pour l'épiderme. La glycérine est un adoucissant de premier ordre.

Le Savon en PAILLETTES. — Particulièrement indiqué pour les **tissus délicats**. Mis en copeaux, il se dissout dans l'eau, **immédiatement**. Sa grande solubilité permet **un rinçage facile**. On est certain de ne pas laisser de savon dans le linge, par conséquent de ne pas en altérer les couleurs.

Coûte 3 fois moins que les paillettes ordinaires

Lavez **tout votre linge** avec les paillettes de "NATUREL SPÉCIAL" faites par vous-même... Vous **économiserez du savon**. Vous n'userez pas votre linge.

MODE D'EMPLOI DES PAILLETTES "NATUREL SPÉCIAL"

Tous les tissus sont des treillages constitués par des fils croisés, eux-mêmes formés de filaments minuscules qui ne tiennent entre eux que par la torsion qu'on leur imprime au filage. Le linge, qu'il soit de coton, de laine ou de soie, est donc une chose délicate.

Il n'y a cependant dans les ménages aucun objet qui soit plus maltraité.
Le lavage par les procédés classiques : battoir, brosse, torsion, friction, brise les fils et détermine une usure rapide.

PROCÉDÉ POUR LAVER LE LINGE SANS L'ABIMER

- 1° Faire tremper le linge, au préalable dans de l'eau tiède légèrement savonneuse, pendant six à huit heures au maximum. Une grande quantité d'albumines qui constituent la majeure partie de la saleté du linge sera enlevée.
Ne pas employer d'eau bouillante qui coagulera au contraire ces albumines et les **fixera sur le linge.**
- 2° Après ce premier trempage, râper un peu de "NATUREL SPÉCIAL" avec un couteau sans enfoncer la lame dans le savon, faites une solution d'eau savonneuse ayant une température de 60 à 70° environ.
Quand l'eau commence à "fumer" nettement elle est aux environs de la température voulue.
Il ne faut jamais dépasser cette dernière pour éviter de coaguler les albumines.

PRÉPARATION DE LA SOLUTION (Comme indiqué plus haut, voir gravure et dose)

- 3° **Pour dégraisser complètement le linge** il suffit d'établir un **contact intime** entre l'eau savonneuse et le linge à nettoyer. Pour cela, si on n'a pas de machine à laver, remuer le linge **non tassé** et placé dans un récipient à **parois lisses** avec un bâton, de façon à produire des vagues lentes et fortes.
La durée de l'opération dépend du degré de saleté du linge, mais de toute façon, elle n'est pas très longue et on est étonné du résultat obtenu.
 - 4° Rincer soigneusement jusqu'à ce qu'on obtienne une eau claire.
- Le "NATUREL SPÉCIAL" **étant très soluble** s'éliminera facilement, le linge ne risquera pas de jaunir au repassage comme cela peut se produire avec certains savons peu solubles dans l'eau.

DÉSINFECTION. — Pour désinfecter le linge on le fait **bouillir en général dans les lessiveuses.**
C'est un mauvais **traitement inutile et illusoire**, car certains microbes ne sont détruits qu'à 150°. C'est une température qu'on n'obtient jamais. Une quantité infime d'eau de Javel (une petite goutte à peine par litre d'eau) désinfectera le linge d'une façon bien plus certaine, sans l'abîmer.

Pour obtenir des flocons de Naturel spécial remplaçant les meilleures paillettes :

Passer légèrement le couteau sur la barre, en remontant.

DOSE : 3 cuillères à soupe pour 5 litres d'eau. Faire dissoudre dans l'eau tiède.

A l'usage ECONOMIE de 25 % sur le bon Savon de ménage

James

Messieurs Henri JONAS & C°
137 & 139 St-Paul Street
MONTREAL.-
Canada

Messieurs,

Nous vous accusons réception de votre estimée du 10 Avril qui s'est croisée avec notre lettre du 5 par laquelle nous vous confirmons nos ctations actuelles.

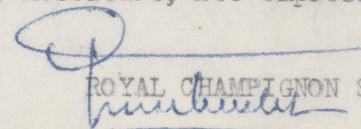

Nous regrettons d'apprendre que les prix que nous vous avons indiqués vous paraissent trop élevés pour envisager une première exportation, mais dans les circonstances actuelles, il nous paraît difficile de faire mieux, compte tenu de la qualité que nous nous proposons de vous livrer.

Ainsi que vous devez le savoir, nous avons, depuis 1938, après de laborieux essais, mis au point la fabrication des conserves de champignons à l'étuvée, c'est-à-dire champignons cuits à l'étuvée et conservés dans leur jus. Cette nouvelle formule a remplacé avantageusement la fabrication dite au naturel (champignons blanchis artificiellement et conservés en saumure) que nous utilisions, comme tous nos confrères, avant 1940.-

Depuis quelques années déjà, notre procédé a été adopté avec plus ou moins de réussite par un certain nombre de nos concurrents et nul doute, que dans un avenir prochain, il remplacera complètement l'ancien procédé de fabrication. C'est pourquoi, nous vous demandons de bien vouloir reconsidérer notre offre, car nous serions très désireux de vous voir nous confier un ordre d'essai, persuadés que grâce à la supériorité de notre fabrication et à sa présentation luxueuse, vos ventes, dans cet article, augmenteraient considérablement.-

Restant dévoués à vos ordres,

Nous vous prions d'agréer, Messieurs, nos empressées salutations.-

ROYAL CHAMPIGNON S/A

P.S. Nous vous remettons inclus un modèle de notre étiquette " GIM " que nous pourrions utiliser pour l'exécution de vos ordres. Nous pensons que cette présentation pourrait avoir votre préférence, le texte Anglais qui y figure étant conforme aux règlements Canadiens. En cas d'ordre, vous voudrez bien nous indiquer l'étiquette qu'il y aura lieu d'utiliser.-

Ice Cream Flavors

There are many manufacturers who wonder why their Ice Cream does not have the characteristic taste which denotes it from all other products—the answer is very simple, it is because they use a flavor that freezes out, and the only way to overcome this is to rely only upon flavors properly made, such as the larger plants insist upon. The flavor portion of Ice Cream is of such great importance and the cost so small that it pays to use only the best.

Vanillo The Perfect Blend: A highly concentrated Vanilla Flavor, particularly adapted for fine Ice Cream work. Price per pound, \$4.00.

Maple Concrete Special Like a rich delicious Canadian Maple Syrup which cannot be equalled and its use will greatly improve your Ice Cream Sales. Price, \$12.00 per gal.

Fancy Flavors for Special Work Our concentrated flavor of Strawberry, Raspberry, Cherry, Grape, Orange, Lemon, Pineapple, etc., will give your Ice Cream a delicious taste.

Price, \$12.00 per gal.

The Canadian Society for the Prevention of Cruelty to Animals

1705 St. James Street,

Montreal

January 19th, 1934.

No 16728 Shegung \$25.00
Dear Mr Jonas, sent by 5/1934

At the special meeting of the Society for the Prevention of Cruelty to Animals held on January 18, 1934, it was decided to subdivide the membership into groups based on the total amount contributed yearly by members, and thus eliminate the necessity of the annual individual appeal through the mail to supplement the proceeds of our annual Tag Day.

Last year you generously supported the work of the Society by contributing a total of \$ 25.00, and, subject to your approval, we would like to enroll you as a Senior & Life Member.

We hope that you can continue to support us as in the past, because our needs are greater than ever before, and our resources are inadequate for the task.

In the enclosed folder you will find the story of our work. Please use the form on the last page to indicate the class of membership you prefer.

Yours very truly,

President.

Bequest No 1673
\$5.00 - Feb 5/1934
January 5th, 1934.

Dear Sir or Madam,

The Montreal Orchestra Concerts have to stop unless additional funds can be secured. The Committee did not wish to go to the public for straight subscriptions so a Benefit Entertainment has been arranged at which a \$500. Government Bond will be given away. For the small sum of 50 cents (Tax extra) the public will be able to hear the full orchestra and will have the opportunity of securing the Bond.

In the hope that you will help the committee to dispose of these tickets, we are taking the liberty of enclosing a book of ~~twenty~~¹², the cost of which is \$10.50.

As in former years, Mr. J. E. W. Stephenson, Manager of The Canadian Bank of Commerce in Montreal, has consented to act as Hon. Treasurer and cheques should be made payable to:

The Montreal Orchestra Benefit,
J.E.W. Stephenson, Hon. Treas.

We are trying to keep alive a symphony orchestra of the first standard and at a lower operating cost than anywhere else in the world. The conductor receives no fee; the administrative work is voluntary; the music is loaned by the McGill music library and the players are allowed to accept considerably less than the Union rate because all the proceeds are divided equally among them after the small operating expense is deducted.

Needless to say, your co-operation will be very deeply appreciated not only by a large number of music lovers, who can't afford to give, but even more by a body of talented musicians who are depending on these concerts for a livelihood through the winter months.

Yours truly,

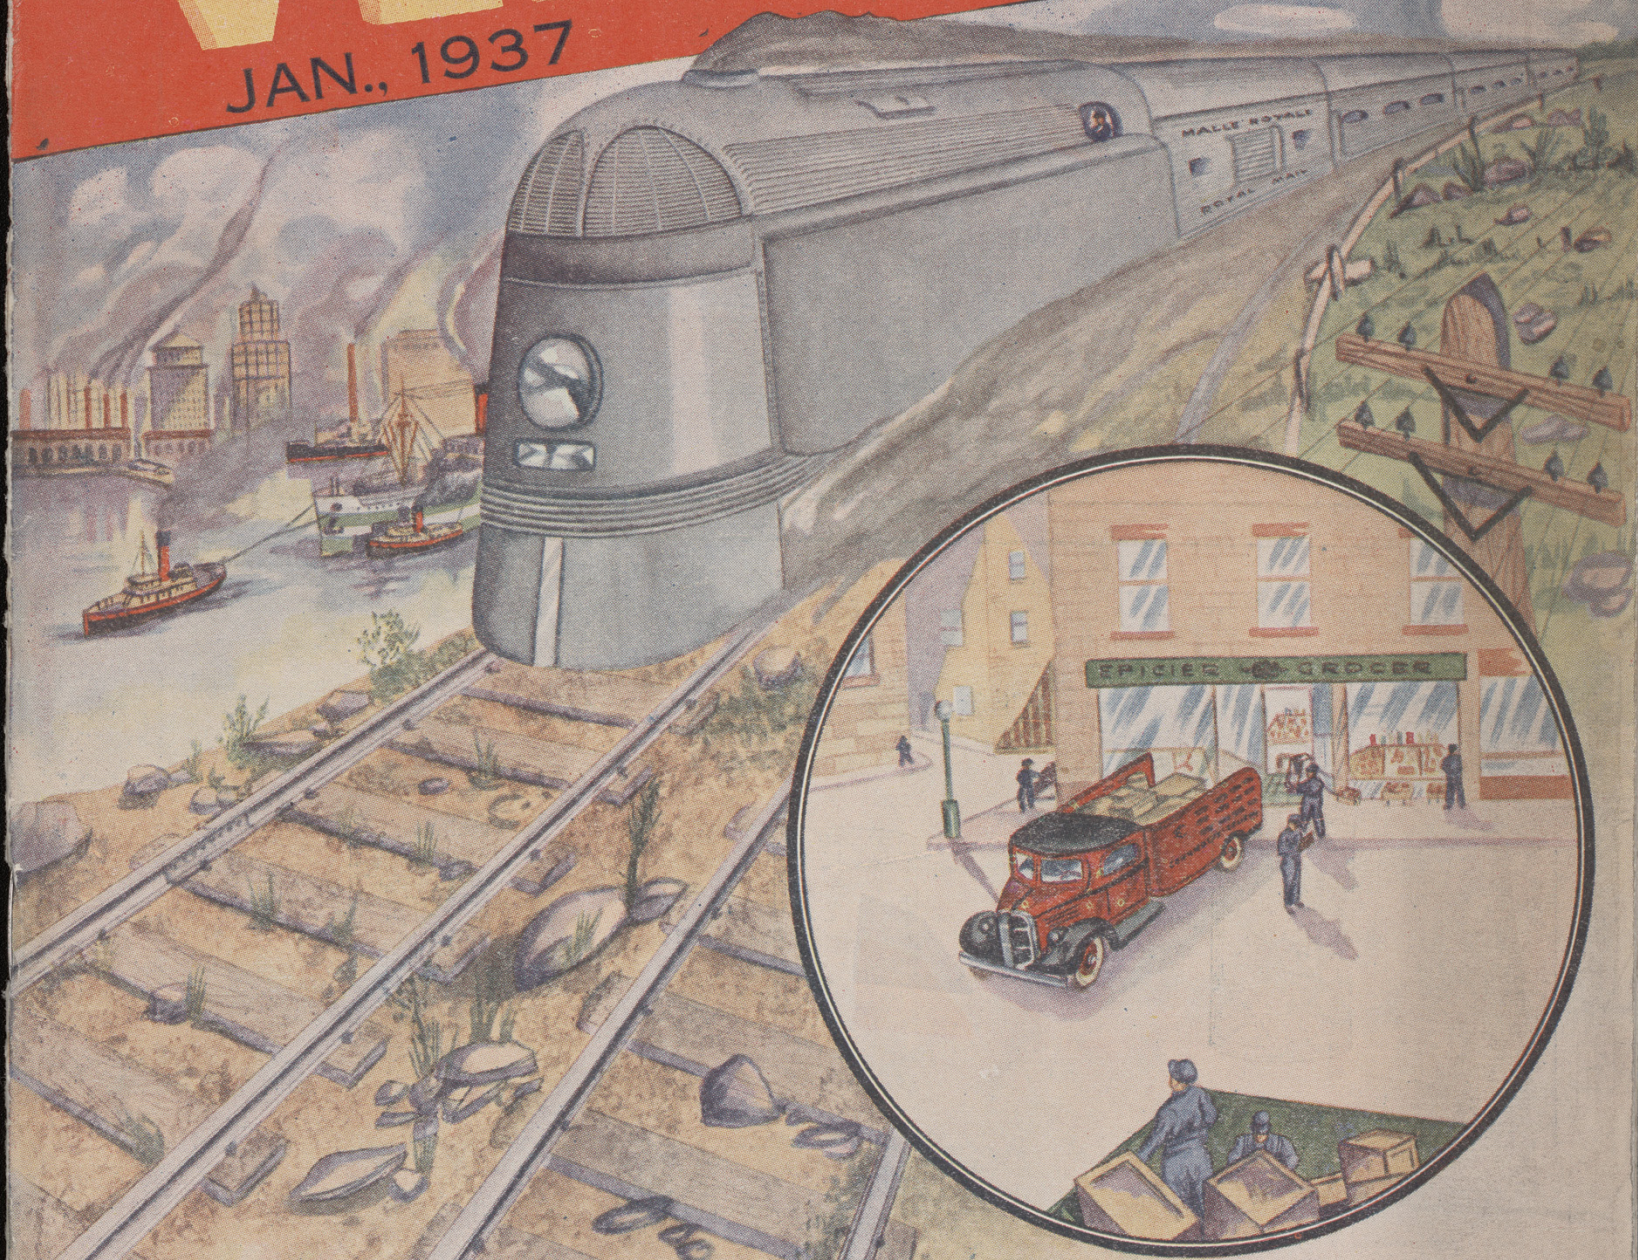

GERALD DECARY

Chairman, Emergency Committee.

LITTLE PATIENTS BEING EVACUATED FROM THE HOSPITAL FOR SICK CHILDREN, LONDON, W.C.1., AFTER IT HAD RECEIVED A DIRECT HIT — EVERYONE WAS SAVED AND THE HOSPITAL CARRIES ON.

THE HOLE IN THE ROOF OF THE HOSPITAL FOR SICK CHILDREN, GREAT ORMOND STREET, LONDON, W.C.1., CAUSED BY A NAZI H.E. BOMB.

ONE OF THE WARDS OF THE HOSPITAL FOR SICK CHILDREN, GREAT ORMOND STREET, LONDON, W.C.1., DAMAGED BY A H.E. BOMB. OVER £50,000 WORTH OF DEVASTATION WAS CAUSED.

FROM
LORD SOUTHWOOD
CHAIRMAN OF
THE HOSPITAL FOR SICK CHILDREN
GT. ORMOND STREET, LONDON
W.C.1

July, 1941.

The Manager,
Messrs. H. Jonas & Co.,
Montreal.

Dear Sir,

This letter comes to you from the heart of London. Whatever your own difficulties at the moment - and I know they must be many - I want you please to spare just a few minutes to read about a tragedy that has befallen the greatest hospital for Sick Children in the world.

You may have read in the papers that a Children's Hospital in Central London had been bombed. That Hospital was the Hospital for Sick Children at Great Ormond Street.

For years men and women had toiled devotedly and unceasingly to rebuild this famous Children's Hospital. The greater part of a beautiful modern building had been completed at a cost of over £350,000. Then, in the night, came the bombs.

Doctors and Nurses and the Hospital staff fought a fire the flames of which roared into the air. They battled through the roaring floods shoulder deep from the burst water mains. Every baby in the Hospital

was saved. By a miracle not a single little life was lost.

The wreckage remains - and amid that wreckage the hospital that has never closed its doors since the day it was first opened in 1852, carries on.

I am sending you with this letter a little of the rubble that was once part of the magnificent building that Hitler has bombed. I am sending, too, a few photographs that will give you some idea of this act of wanton destruction against innocent little children.

On behalf of the Children who have been so outrageously wronged - on behalf, too, of those wonderful men and women of the Hospital staff who, through flame and flood and fury carried their little charges to safety - I appeal to you to help.

In your position I know only too well that you have many appeals that may seem to make a more immediate claim upon you. Far be it from me to ask for your help at the expense of any local charity - but I do ask you to look upon this very urgent appeal as something quite apart. For children - sick and suffering children - are in a special sense the responsibility of every one of us. They are, too, the coming generation - the men and women of the future to whom, when victory comes, we must look to build a better and safer world.

When I tell you that our Hospital is £175,000

on the wrong side and that war or no war this debt must be paid off, you will appreciate the tremendously difficult task with which I am faced.

The work of the Hospital for Sick Children is world-wide - our tiny patients come to it from every corner of the Empire and the doctors and nurses who are trained here go forth on their missions of healing all over our own country and to countries beyond the seas.

Many of the little ones who come to us are the children of those grand men who are fighting to defend our Empire and our liberty. To help now is to earn their undying gratitude. Your assistance now will give us the assurance that one day - and may that day come soon - the Angel of Mercy shall once again beckon little children where the destroying angel has just been.

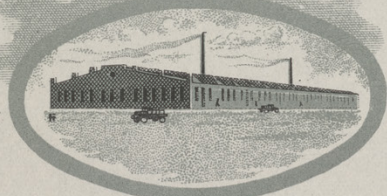

Please do this for us -- your kindness in this dark hour will never be forgotten.

Yours faithfully,

Southwood

Ottawa, Ont.

Dear Sir:-

Your letter of the 2nd. instant received, and we will comply with what you suggest. We are getting a label made with the size of letters you mentioned, also the coloring.

When Mr. McGilvray called to see us, he promised to send us a list of Gauges we should put on the PEAS. We have been waiting for that information, so that we can have labels prepared immediately in FRANCE, if the goods have not already been shipped.

For instance what size sieve should we put on our

Peas Sur Extra Fins
" Extra Fins
" Très Fins
" Fines
" Demi Fins
" Moyens

and what should we call Standard # 1, # 2, - We are waiting to send this information to France, as we find your size of sieve does not agree with the French sizes.

Your early reply, will oblige,

Yours truly

Ottawa, July 9, 1920.

Messrs. H. Jonas & Co.,

Gentlemen:

I have the honour to acknowledge receipt of your favour of the 5th instant addressed to Dr. Barnes.

In it you were asking for definitions of sizes of grades.

At the time Mr. McGillivray visited your office you gave him the sizes which you claim the different grades of French Peas were packed in.

We have procured what is claimed to be a French scale of Standard Gauge as adopted by American Surgical Trade Association and we find it works out as follows:

French Scale No.23 or less, Size 1

French Scale No.24 Size 2

French Scale No.26 Size 3

French Scale No.27 to 29 Size 4.

Messrs. H. Jonas & Co.,

-2-

I trust this information will be a guide for you in grading your Peas for Size.

We would, however, point out to you that the size of the Peas does not necessarily govern the quality of the peas as Size No. 1 Pea may be of Standard Quality or it may be of Fancy Quality as also Size No. 4 Peas may be of Standard Quality or Fancy Quality.

The quality is determined on the condition of the Pea and not on the Size.

I trust this explanation is clear to you.

I have the honour to be,
Gentlemen,
Your obedient servant.

Veterinary Director General.

Gentlemen:

I have the honour to advise you that the lot of Haricots which were placed under detention by Inspector Macey on June 23rd, have been examined and found to be CHOICE QUALITY.

They have also been examined for colouring and the chemist's report is 40 p.p.m. as metallic copper on drained beans.

You will, therefore, be required to label these goods with a sticker or in any other manner which will be satisfactory to this Department, showing the following information:

"CHOICE QUALITY" in type not less than 3/8 of an inch in height.

"THESE HARICOTS HAVE BEEN
COLOURED WITH SULPHATE
OF COPPER."

the latter to be in type not less than 1/8 of an inch in height.

Messrs. H. Jonas Co.,

-2-

We would advise you to submit to this Department a proof of the printing which you intend to use on the sticker or the label for these goods that it may be approved before you use it.

You will understand in the meantime that you are not to ship out any of these goods until released by an officer of this Department.

I have the honour to be,
Gentlemen,
Your obedient servant.

Messieurs H. JONAS & C^o

173-177 St-Paul Street

MONTREAL

Messieurs,

Nous possédons votre lettre du 6 courant relative aux désignations à porter sur les boîtes de pois.

Nous avons lu avec attention la circulaire et nous ne comprenons pas comment se doit définir les qualités: "FANCY QUALITY" "CHOICE QUALITY" "STANDARD QUALITY" et "SECOND QUALITY"

Nous saisissons parfaitement la portée des instructions au sujet du criblage (gros pour pois crus). Nous vous remettons ci-dessous le diamètre en m/m auquel correspondent, d'une part le numéro du crible (anglais: size n°1-n°2 etc..) et d'autre part les diamètres de nos cribles en mesures françaises.

Les surextrafins	sont du crible	:	23 1/2	7 m/m
" extrafins	"	"	24	7 m/m, 2
" très-fins	"	"	25	7 m/m, 4
" fins	"	"	25 1/2	7 m/m, 8
" 1/2 fins	"	"	26	8 m/m, 2
" mi-fins	"	"	26/28	8 m/m, 2 à 9 m/m

Il ressort de cet exposé que la size n°1 ne pourrait être appli-

que pour les surextrafins, que la size n° 2 s'appliquerait aux extra-fins aux très fins et aux fins, la size n°3 aux ^{demi} fins, et la size n°4 aux mi-fins, bien que cette dernière désignation contienne des cribles 26 & 27 qui pourraient être englobés dans la size n°3. Vous voyez donc la complication.

Le seul point sur lequel nous désirons avoir votre réponse par télégramme est la désignation "FANCY QUALITE" CHOICE QUALITY" etc..., car nous ne voyons pas que ces qualités correspondent à un criblage.

Vous n'aurez qu'à nous télégraphier la désignation "Standard" "Fancy" "Choice" ^{en le faisant suivre des mots de} pour chacune de nos qualités: surextrafins- très fins- fins etc..

Nous avons rempli pour votre compte, cette campagne :

50	caisses	1/2	Pois	Surextrafins
55	"	1/2	"	Extrafins
24	"	1/2	"	Très-Fins
129	"	1/2	"	Fins
47	"	1/2	"	Demi-Fins
50	"	1/2	"	Mi-Fins
68	"	1/4	"	Demi-fins.

423 Veuillez agréer, Messieurs, nos salutations empressées.

GRADING FOR QUALITY.

All the products named above must be graded for QUALITY as provided for in the Regulations, and the label must declare that QUALITY in plain type not less than three-eighths ($\frac{3}{8}$) of an inch in height in terms of "FANCY QUALITY" "CHOICE QUALITY", "STANDARD QUALITY" or "SECOND QUALITY" as the case may be.

PEAS.

Peas must show the size of the seive through which they were graded in plain type not less than one quarter ($\frac{1}{4}$) of an inch in height as follows :

For an opening $\frac{9}{32}$ inch diameter Size 1 or Seive 1

For an opening $\frac{10}{32}$ inch diameter Size 2 or Seive 2

For an opening $\frac{11}{32}$ inch diameter Size 3 or Seive 3

For those which will not pass through
an opening $\frac{11}{32}$ inch diameter Size 4 or Seive 4

Peas not having been graded for size must be marked "UNGRADED"

TRADE NAME.

Where the terms "EARLY JUNE PEAS" or "SWEET WRINKLED PEAS" are used the Peas must be of the actual variety named otherwise the words "Trade Name" must follow the name of the variety, that is to say, if the label defines the peas as "Sifted Early June Peas" the Peas must be of the Early smooth variety, or if defined as "Sweet Wrinkled Peas" they must be of the sweet wrinkled variety, regardless of the size of the peas, otherwise they must be defined as

EARLY JUNE PEAS
(Trade Name)

or

SWEET WRINKLED PEAS
(Trade Name)

It is to be understood that the terms "Early June", "Sweet Wrinkled", "Extra Sifted", "Extra Fine Sifted" or "Petit Pois" will not be recognized in any way as a definition of either size or of Quality of the peas.

A can of peas labelled as follows would be accepted:

"STANDARD QUALITY"	(3/8 inch type)	John Doe Co
Size 1	(1/4 inch Type)	Cobalt
PEAS	(3/8 inch Type)	Ont.

This gives the Quality claimed, the size claimed and the product claimed,

also

the name and address of the packer

Attention is particularly drawn to the fact that these Regulations apply to Imports as well as to goods of domestic manufacture and warning is given that any of the afore mentioned goods which may be received by any dealer after this date FROM A MANUFACTURER OR IMPORTER labelled with a label which does not comply with the Regulations will be liable to be placed under detention till properly labelled

The co-operation of all Manufacturers, Importers, Wholesalers and Jobbers is earnestly solicited in an endeavour to carry out these Regulations.

BISCUITS:

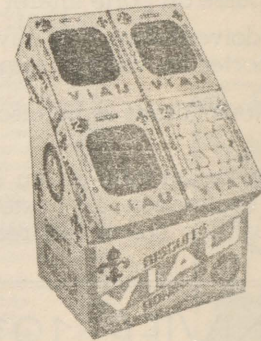

Nous accordons un escompte de 5% sur les biscuits vendus par les compagnies suivantes: Christie-Brown, Marven, McCormick, Viau et Weston. Demandez à leurs vendeurs de passer vos commandes par Couvrette-Sauriol Limitée. — et insistez car en centralisant vos achats des différentes marques de biscuits par notre maison, vous n'avez qu'à faire un seul chèque au lieu de plusieurs et vous économisez plusieurs timbres d'accise, plusieurs timbres postaux et les frais de collection de plusieurs chèques non payables au pair à Montreal

We give a discount of 5% on biscuits sold by the following companies: Christie-Brown, Marven, McCormick, Viau and Weston. Ask their salesmen to put your order through Couvrette-Sauriol Limited. — and do it with insistence as, by centralising your orders from the different biscuit companies you do not have to pay more than one excise stamp, one postal stamp and costs for collection of many cheques not payable at par in Montreal when you make remittance.
